A truly mega-journal making a difference for taxonomic research

- *Zootaxa* publishes high quality zootaxonomic papers regardless of the length of each paper/monograph
- All manuscripts are peer-reviewed before acceptance
- Accepted papers are published as soon as they are ready, without delay
- Printed and online editions are published on the same day and both are available to subscribers
- There is no page charge for publishing with *Zootaxa*
- Open access of papers will be arranged if authors opt to pay a fee
- Authors are given free e-reprint upon publication
- Colour illustrations are published free of charge in the online edition
